PROFESSIONAL SUMMARY

I am quite knowledgeable about the best practices and guiding principles of network security. I place a high value on providing exceptional customer service, and I've had success in the past collaborating effectively with teams from many departments to swiftly resolve network issues. I am a proactive problem solver that thrives at handling challenging network issues. I'm dedicated to keeping up with emerging technology and am constantly searching for new and creative ways to integrate cutting-edge concepts and increase network efficiency. I'm searching for a challenging position to be able to work in a career oriented and challenging environment that promotes growth, and uplift professional development.
